

2n FemCAT Forum

The world at our doorstep: Business, Labour and Immigration

Overview

Ensuring the social cohesion of Catalonia is one of **FemCAT**'s main lines of work. Allowing for a coherent approach towards the challenges related to occupation can be a key factor given the present circumstances. We believe that immigration deserves a specific analysis from a managerial viewpoint.

Occupation and immigration are the two subjects that we want to analyze in this work session. We want to do it with an economic and managerial approach, acknowledging at the same time that they are two of the most important challenges for a society that wants to maintain its social cohesion.

Schedule
